Thank you for helping Operation Supplement Safety (OPSS) celebrate our 10-year anniversary by participating in the "Let's Talk Dietary Supplements" social media campaign. We are overwhelmed by the outpouring of support from our friends and partners who shared video testimonies on why supplement safety is so important.

As we wrap up our campaign, OPSS wants to emphasize that the conversation around supplement safety does not end here. Continue the conversation by sharing tools and resources from trusted organizations such as OPSS, Office of Dietary Supplements, Food and Drug Administration (FDA), and more.
